

Join us as we chart the future
for the 2800 students in
Northland School Division No. 61

We are looking for a superintendent and CEO to guide us as we enter a period of rebirth and renewal.

We are Alberta's northernmost school division. We cover 160,000 sq. kms, 98 percent of our students are First Nation & Métis and the families we serve live in 23 communities.

We are 5 months into a provincial review of our jurisdiction. Our goal is to structure our education system to give our students a springboard to academic success. We expect to receive the recommendations emanating from the provincial review in September 2010. As superintendent and CEO, you will be a fundamental part of making the recommended changes for the children we serve.

What will you bring to the table?

You are excited by a challenge and the unique opportunity to build something from the ground up. You are committed to shared leadership. You understand the power of teamwork. You have a record of bringing change to the school and system level. You have the people skills to work effectively with communities, political leadership, the division's executive team, staff, parents and education partners. You will have a background in FNMI Education.

We are excited about the opportunities before us. We want someone who shares our excitement; who sees the potential within our system and who will bring that potential out.

Applicants must hold or qualify for Alberta teacher's certification and must hold a Master's degree. Applications received prior to June 7, 2010 are assured careful consideration. The competition will remain open until a suitable candidate is found. Email your curriculum vitae and a list of at least five recent references before June 7, 2010 to:

Mr. Terry Gunderson, Alberta School Boards Association
E: tgunderson@asba.ab.ca P: 780.451.7116
